(I was off today) Today was off. I went to get haircut and then let my car checked to know how much it is to fix that. It was very expensive, so I'll (go to) another shop.

There was a board game party at Eieigo. I was going to eat dinner after the party, but some people recommended me some food. I was happy, but also sorry because I had nothing to return to them.

Listen to National Public Radio all the night while I'm sleeping recently. It mightn't be good, but I'd like to do because I want to master English. Foreigners speak really fluently and fast, and it's perfectly different (like) as if my English were another language.

I bought some fried chicken and croquettes on my way home. My daughter usually doesn't like my menus, But when she found that, she appealed that she want to eat.

Teacher's advice:  
 Try using simpler vocabulary and try using "a", "the", "my", and "I" more.  
 Try thinking about how to use "this", "that", "these" and "those". Otherwise, good work! ☺
